

# Smart Home Technology (Automation, Electrical & solar system)

*Control your Life...*

# Smart Home Technology

## تقنية المنزل الذكي

# Vision:

**To provide quality services that exceeds the expectations of our esteemed customers.**

# Mission:

statement to build long term relationships with our customers and clients and provide exceptional customer services by pursuing business through innovation and advanced technology.

## What is the Smart Home Automation ?

Smart automation technology is a perfect plan to control your life style by a press of a button. Smart automation is the residential extension of building automation, it can be divided into: (Smart Home, Smart Office, Smart Hotel, Smart Hospital). Smart automation may include centralized control of lighting, heating, ventilation, air conditioning, appliances, security locks of gates and doors and other systems, to provide improved convenience, comfort, energy efficiency and security. Smart automation technology leads to a brave new world in which most everyday tasks will be fully automated. This technology is a set of integrated services that can be used for : Home, Office, Hotel, Hospital and it is supported by a number of systems that offer the user great benefits in terms of comfort, savings and energy management, security, communications and information.

## **What is the Smart Home solar works**

we will be confident in the company you hire to install your panels. At Smart Home technology, we don't just take pride in what we do – we make a promise to each one of our customers to provide them with the exceptional service and quality that they deserve.
